MY PERSONAL PORTFOLIO

USING THE COCEPTS OF:

- **HTML.**
- **CSS**
- **JAVA SCRIPT**

- **Registration Number**

  - **24-CS-248-**
  - **24-CS-022**

INTRODUCTION

- This project represents my **personal portfolio website**, showcasing my skills, education, projects, and contact details. The website is designed with a blend of creativity and functionality, using HTML and inline CSS styles and java script to deliver a visually appealing and responsive platform. It reflects a strong foundation in web development and serves as a professional representation of my expertise and aspirations.

OBJECTIVES

The primary objectives of this project include:

- **Professional Representation:** To create an online portfolio that highlights my personal and professional attributes.

- **Showcase Skills:** To present technical skills in web development, programming, and software development.

- **Highlight Education and Projects:** To provide an overview of educational achievements and significant projects.

- **Interactive Communication:** To facilitate communication with visitors through a contact form.

- **Creative Design:** To demonstrate a modern, aesthetic web design that aligns with best practices in HTML.

METHODOLOGY

⦿ **HTML Structure:**

Used semantic tags (header, section, footer) to organize content into clear, meaningful sections.

Incorporated links, images, and an iframe for embedding content.

⦿ **Styling:**

Inline and embedded CSS were used to style elements, including:

Navigation bar with rounded buttons and shadow effects.

A responsive container for each section.

Use of gradients, fonts, and colors for enhanced aesthetics.

⦿ **Interactive Elements:**

Created navigation links for smooth transitions between sections.

Added a contact form for visitors to reach out.

Included external content such as videos (via YouTube iframe) and additional references.

SCOPE

- The project is designed to serve as a **professional portfolio website** with the following applications:
- **Personal Branding:** Helps build an online presence for showcasing expertise.
- **Networking Tool:** Can be shared with employers, colleagues, or potential collaborators.
- **Learning Platform:** Demonstrates web development skills, acting as a foundation for future enhancements.
- **Customizability:** The code can be extended to include additional features like animations, dynamic content, and advanced interactivity using JavaScript.

CONCLUSION

- This portfolio website effectively demonstrates the k my knowledge and creativity as a budding web developer and Computer Science student. It provides a comprehensive overview of my education, skills, and projects while maintaining a user-friendly and visually appealing design. The inclusion of contact information and external resources further enhances my professional utility. With potential for future updates, this project stands as a testament to my growth and ambitions in the tech industry.
